How to Play:

1. Win the Early Bird game during June and play "Fishin' for a Fortune" (FFAF) for your chance to win \$100,000!!
2. The FFAF game is played prior to Lucky 8 and is operated from a kiosk in the main room, displayed on a large screen and TVs throughout the hall.
3. The contestant(s) will meet the floor manager at the kiosk to start the game.
4. As fish swim back and forth on the screen, they are highlighted at random.
5. The contestant presses a game button on the kiosk to stop the game and land on a fish.
6. Each fish represents a prize, and the fish the contestant 'catches' determines the prize they win.
7. After catching a fish, the contestant has the option to keep their prize and end the game or keep playing and try to catch more fish and earn more prize money.
8. BEWARE, if a contestant hits a shark, they will lose all of their previous 'Catch' and will end the game!
9. Catch the grand prize fish and WIN \$100,000 (Insured by SCA Gaming).
10. Multiple bingo winners will share the bingo prize and the FFAF prizes.
11. Employees of BJ's and family members who live with the employee shall be ineligible to participate in the promotion and shall be ineligible for the \$100,000 prize.
12. If multiple players are fishing and any player chooses to stop, fishing will end and the prize will be shared by all players.

A malfunction voids all pay and plays. In this event, a \$250 prize will be awarded to the FFAF player for that session and split if multiple players are involved. The game will remain paused until the issue is resolved.

Management reserves all rights to change or cancel the FFAF promotion at any time.

There are several ways of winning:

1. Select the Angel Fish and WIN the grand prize of \$100,000 payable by a third party insurer. A \$100,000 Win ends the game for the month!
2. Catch smaller fish to win smaller prizes:
 - Players may elect to stop the game at any time and collect the awarded prize.
 - Players may elect to continue until catching a shark which signifies a whammy and will end the game and the player will lose all catch.
 - Players may elect to continue through the game play without hitting a shark and without stopping willingly which will result in catching their limit after seven (7) total rounds.

The unit at BJ's is similar to any slot machine in that it was approved after extensive testing at GLI testing lab.

The GRAND PRIZE WINNER will be paid By BJ's Bingo once the claim is verified as valid by a third party insurer within 5-7 days for the winning occurrence.

BJ's will have a Bingo Party for the WINNER Where a Check Will be Presented to the WINNER!!
